

# PASLAPTINGASIS VILNIUS

Projekto vadovas: Denis Vrublevskij

Klasė: 8d

Data: 2023-06-05

# Projekto tikslas:

A photograph of a building at night, illuminated with a purple light projection. The projection features a grid of eyes, with some eyes looking directly at the camera and others looking away. The eyes are arranged in a pattern that covers the facade of the building. The building has a classic architectural style with arched windows and a dark roof. The sky is dark, and the overall atmosphere is mysterious and artistic.

per patyrimines veiklas gilinti žinias apie Vilnių ir skatinti domėjimąsi savo miestu.

# Uždaviniai:

- atrasti ir surasti gyvai legendines Vilniaus vietas;
- sukurti priemones, kurios aiškiai ir suprantamai pavaizduos susijusias su tomis vietomis legendas;
- praplėsti žinias apie tam tikrus Vilniaus istorinius įvykius;
- praplėsti akiratį, parodant, kaip praeities įvykiai įtakoja dabartį.
